The Company

Charleson Building Services was formed in 1985. We are a privately owned Building Engineering Services Company with over 35 years' experience and expertise in design and installation of Mechanical and Electrical systems. We are very proud of the outstanding reputation we have built up since forming and we continuously commit to delivering the high quality skills and operating standards of a large national company combined with the speed and flexibility more often associated with smaller associations.

We always ensure we provide our clients with the highest level of professional service with much personal attention given to each detail of the project. We have a strong in house design team who work to consistent high standards and always produce high quality work.

Charleson Building Services Ltd is committed to being a leader within the industry in safety performance. It is the Company's Policy to take all practicable measures to ensure the safety, health and welfare of all employees and others affected by our work.

Principle Activities

Charleson Building Services Ltd offer a bespoke service to meet all of your Mechanical Engineering Services requirements – from Design, Project Management, Installation & Commissioning of those services in the following areas:

- Heating, Ventilation, Air Conditioning
- Plumbing, Process Pipework
- Associated Controls & Electrical work

We are able to offer full Mechanical and Electrical packages in conjunction with our tried and tested Electrical partners, Ashworth Electrical Services Ltd.

Quality Control

We operate industry recognized procedures for design, project procurement, management, installation & commissioning and we produce quality plans for individual projects as required.

Health & Safety

It is Company Policy to take all practicable measures to ensure the Safety, Health and Welfare of all employees in fulfilment of its legal and economic responsibilities.

These measures are also aimed at protecting others who may be affected by our work.

Our Company Safety Policy is issued to all Staff, Operatives, Sub-Contractors and is prominently displayed in our office (copy available on request).

We employ Wenlock Health and Safety Ltd as our specialist consultants in this area.

Job specific Risk Assessments and Method Statements are prepared for each contract.

Project Experience

We have successfully undertaken projects valued between £10,000.00 and £8,400,000.00 and have experience in many types of buildings; projects include those using Renewable Technologies and requiring BREEAM Certification.

Our clients include “blue-chip” companies such as Yorkon Ltd and Portakabin Ltd (part of the Shepherd Group), Colchester, Hertfordshire, North Middlesex and East Yorkshire NHS Trusts, UKSH (Care UK) and Manchester City Council.
